

How to create a Canvas

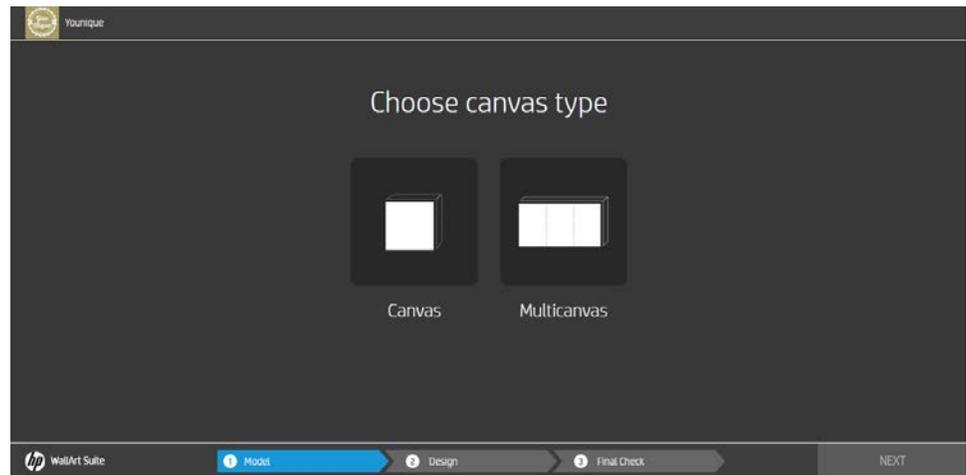

Table of Contents

Start HP Applications Center Canvas app	2
Designing your Canvas	2
Using personal pictures or image banks	2
How to change media	3
Augmented Reality	4
Submit your order	4

Click on Canvas app to start designing

Select Canvas configuration (single canvas or multicanvas) and then the size (whether it is a preset or a custom size)

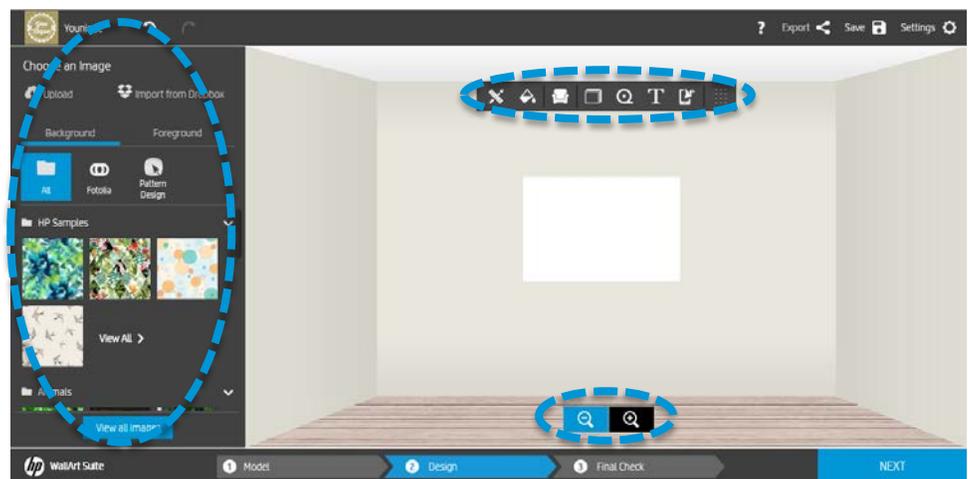

On the left you have the content, and in the central you can see the wall that it's being designed.

You can also switch to a focus on the print or its look on the environment with the slider on the bottom

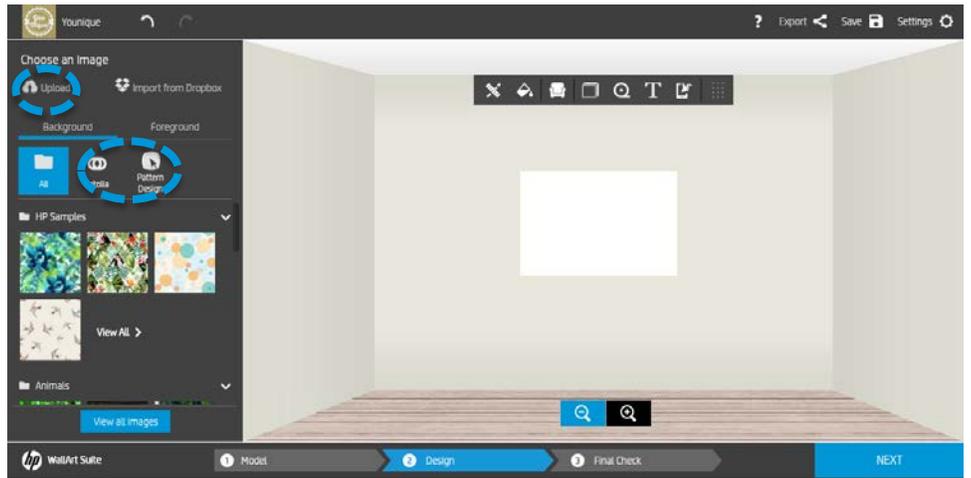

Also you have toolbars on top, which will allow you to:

- Adjust the size of the wall
- Change the color of side walls
- Add furniture and fixtures
- Change Canvas finishing (natural, mirror, solid color)
- Change media type
- Add text
- Add Augmented Reality

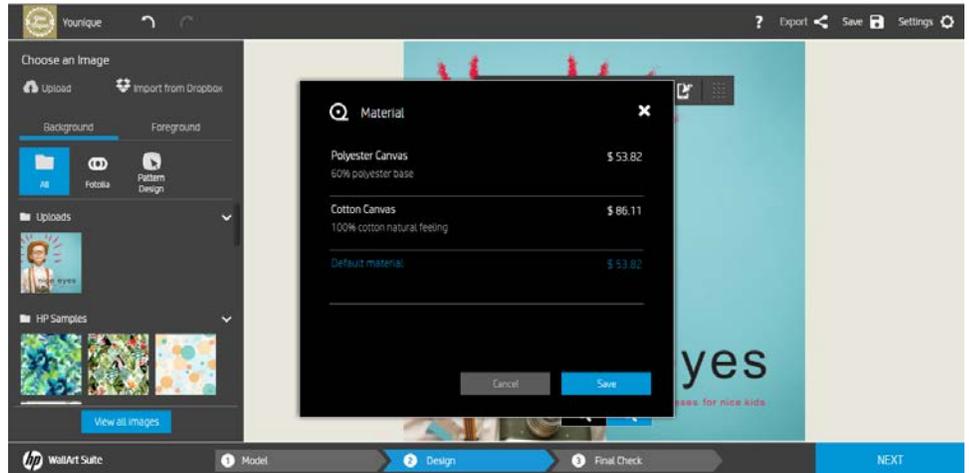

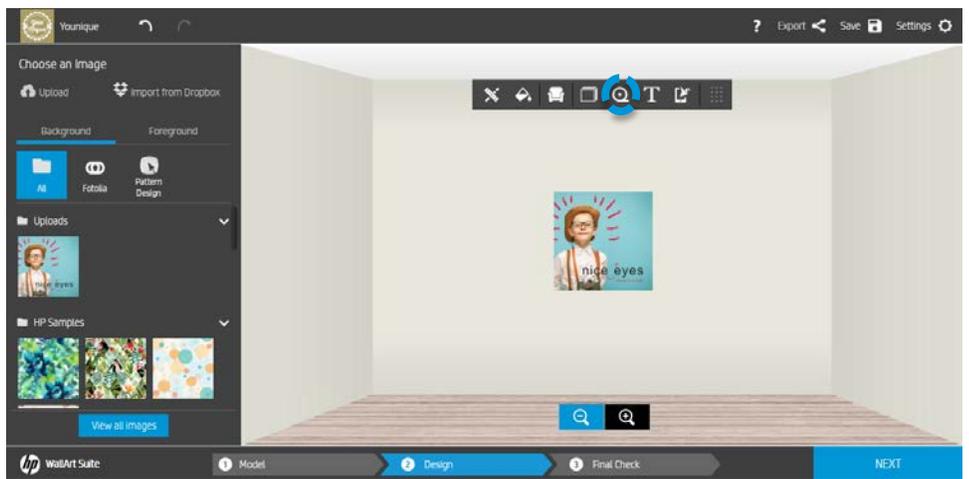

You can upload your own images using the *Upload* option, or use image banks using the proper tabs.

Take into account that you will need to activate those accounts first in the Backend

You can change the substrate type using the appropriate tool, or in the final check

Click on augmented reality

Change icon color

Open Google chrome

You tube

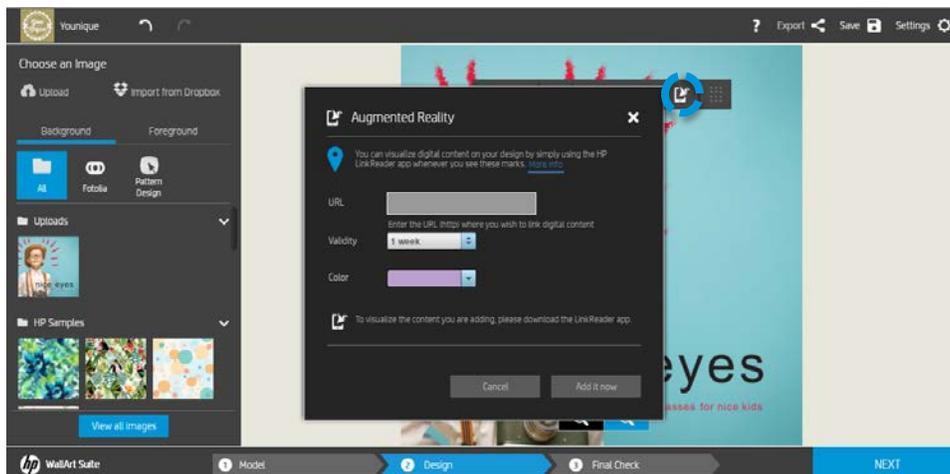

Look for suitable video

Download Link reader in your smartphone

Show the app.

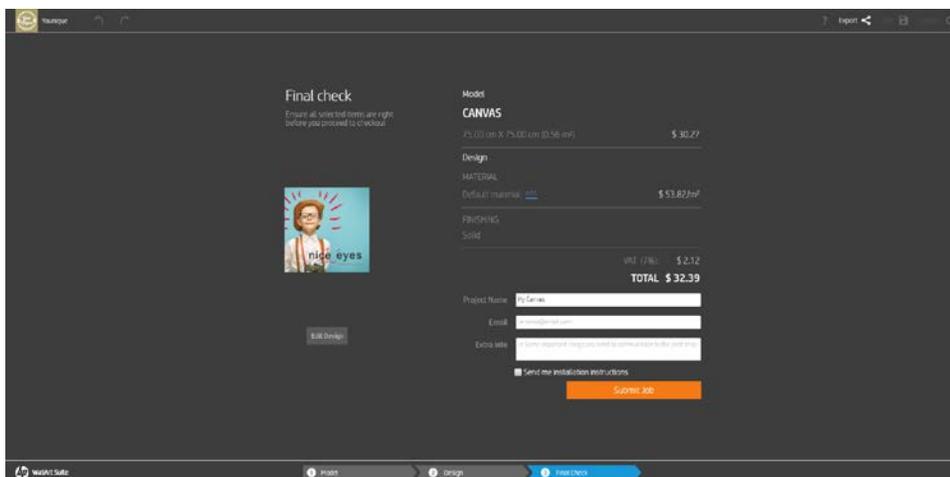

Customers just need to point on the icon and the Link Reader app will run the video

Or you're decorating you corporate office you can link official company video or website

In the final check, you will see the total price of your order and other details before you place it.

You can also enter additional comments or request installation instructions.
